LABYRINTH WALKS

An ancient path of pilgrimage rich with meaning, the labyrinth serves as a powerful tool for self-discovery, stress reduction, gaining awareness and clarity, as well as a path of prayer and spiritual renewal.

The magic of the labyrinth walk happens with metaphor. Whatever you experience on the labyrinth will mirror what you need to see in your life. Walk not to learn about the labyrinth, but to learn about yourself.

Just like a pilgrimage, the labyrinth offers a three-fold path.

- The walk into the labyrinth – is a time for contemplating your life and letting go of any inner obstacles you may encounter (stress, grief, thoughts, feelings) in preparation for reaching the center. Be self-observant. What do you notice about yourself as you walk? Are your choices serving you? Experiment with how you move through the labyrinth of life.
- The center – the sacred destination, is a time for silent meditation, contemplation and renewal. Bring your attention to the present moment and notice how you feel. Stay in the center as long as you like, until you feel complete.
- The journey back out – offers a time for integrating the insights that you gained on the labyrinth and implementing them into your life.

The message of the labyrinth is often subtle. Everything is metaphor. Walk with an open heart and open mind and enjoy this peaceful path of contemplation.

DIVINE NATURE ALLIANCE

Inspiring Growth, Healing and Harmonious Relationships

Hawaii has a history of providing Pu'uhonua or places of refuge, which offered a safe sanctuary to ancient Hawaiians.

The Divine Nature Alliance (DNA) guides people to experience nature as a means of accessing their own inner place of refuge, the source of their inherent creativity, wisdom, resilience and strength.

When people are given guidance, and the opportunity to experiment, practice, explore and discover, they not only learn, but they are transformed and empowered.

DNA offers individuals, organizations, corporations and schools opportunities for education, rejuvenation and inspiration, cultivating harmonious relationships among plants, animals, individuals, cultures, and the earth.
